DEATH OF BESSIE STEWART.

Body Taken to Her Home at Fairfax for Burial—Was Visiting Relatives.

Miss Bessie Emile Stewart, the 22-year-old daughter of Mr. and Mrs. William Stewart of Fairfax, Mo., died Wednesday night at St. Francis hospital, after a two weeks' illness of typhoid fever. The body was taken to Fairfax Thursday morning ,to the home of the parents, six miles east of Fairfax.

Miss Stewart came to Maryville six weeks ago for an extended visit with her grandmother, Mrs. T. L. McClurg, and her aunts, Mrs. Henry Martin and Mrs. Charles Jensen. During the street fair she assisted in the book department of the Alderman dry goods store, and her sweet, gentle ways led many to inquire about her. Her death is keenly felt by all who met her during her short stay in Maryville. She knew she could not recover, but she had no fear of death, and sang several songs shortly before she passed away.

The young woman is survived by her parents and two young brothers and a sister. Mr. Stewart, who was with his daughter when she died, was accompanied home Thursday by Mr. and Mrs. Henry Martin.

The funeral services are to be held Friday, November 3, at Walkup's Grove church, at 11 a. m., where Miss Stewart had attended Sunday school and church since a little girl. She was a bright young woman, having had good school advantages. She was graduated from the Fairfax high school with the class of 1908, then took post-graduate work. She was full of life and loved by all who knew her, and will be kindly remembered by her friends.

She was visiting with her uncle and aunt, Mr. and Mrs. Charles Jensen, in Maryville, when she was taken ill.

TIGERS REGAIN LEAD

In the Normal Basket Ball Tournament.

Standing of Teams.

	P.	W.	L.	Pr.ct
Tigers	11	7	4	.636
Dodgers	12	7	5	.583
Athletics	11	6	5	.545
Dwarfs	11	4	7	.363
Giants	11	4	7	.363

The Tigers are again leading the basket ball race as a result of Wednesday's games. While they were handing the Dwarfs a 12 to 5 beating the Athletics were walking on the Dodgers at a 19 to 11 rate. By beating the Dodgers the Athletics have a fair chance to cop the bunting. However, the Tigers with Captain Mitchell back in the game, are about the best bet for the winners. The Dwarfs put up a game fight against the Tigers, but their old weakness, that of the inability to score the points necessary to win an ordinary game, beat them. Due to the untiring efforts of Captain McClintock, the Dwarfs have held their opponents to fewer points than has any other team, but the lack of a first class forward accounts for their present position in the race. Nixon, the former high school player, played a very consistent game at center for the Bengals. The line-up of the Dwarf-Tiger game:

Tigers—Carpenter and Mitchell, forwards; Nixon, center; Holmes and R. Miller, guards.

Dwarfs—Dunshee and Dias, Larmer, forwards; Breit and Dunshee, center; McClintock and F. Miller, guards.

Summary—Field goals, Mitchell 2, Carpenter 1, Nixon 2, Davis 1. Free throws, Carpenter 1, Dias 1. One point was awarded to the Tigers.

In the second game the Athletics got revenge for two former defeats at the hands of the Dodgers by out-classing them easily 19 to 11. The Athletics play a much improved game, as the result of better team work, and they feel that they have a good chance for the pennant. Last night's victory was their fourth consecutive one. The line-up:

Dodgers—Denny and McGrew, forwards; H. Seymour, center; Parman and Mutz, guards.

Athletics—Allen and Strader, forwards; Perrin, center; Cook and Simpson, guards.

Summary—Field goals, McGrew 1, Seymour 3, Parman 1, Allen 3, Strader 2, Perrin 3. Free throws, Seymour 1, Perrin 3.

The Dodgers basket ball team of the Normal and the high school five will play an exhibition game in the Normal gymnasium this afternoon at 4:30 for the teachers who are attending the association. This game will be of considerable interest, as this will be the first game for the high school. Captain Quinn is a fast guard and a heady player, and with fairly decent material to work with he should develop a fast bunch.

M. E., South, Ladies' Reception.

Tuesday afternoon from 2:30 until 5:30 the ladies of the Foreign Missionary society of the M. E. church, South, were the hostesses at a beautiful reception given at the home of Mrs. H. K. Taylor, their president. The stately Normal residence presented a novel and delightfully attractive appearance in its Hallowe'en decorations. Autumn leaves were profusely used, along with a number of jack-o'-lanterns made of huge yellow pumpkins. In the library the decorations were particularly beautiful, the punch bowl being placed in a large pumpkin in the midst of a bank of multi-colored leaves, imitation grapes and fruit. The bookcases were completely covered with boughs of weeping willow and the shaded orange light lent a mellow beauty to the scene.

The guests were admitted by little Victor Moore and met by Mrs. M. A. Peery, who, in her gracious manner, ushered them in through the woodland decorations of the hall to the library. TARIFF TAXES IN THE HOME.

The table is being laid for a meal. It is a pleasant sight. And not a stage of the operation but has received the eager attentions of the Payne tariff tax law. It begins right with the table itself, which is tariff taxed 25 per cent.

The table cloth, if a cheap cotton one, is tariff taxed 40 per cent; if it is of linen damask it must never be tariff taxed less than 50 per cent.

Should it be of drawn work that is made in a little European village or a convent it pays 60 per cent tax.

The plates for each member of the family are tariff taxed 55 per cent if they are plain white; if they are ever so slightly decorated the duty is 60 per cent.

The knives at each place are tariff taxed 14 cents each, and in addition to that 15 per cent of their value.

The forks are tariff taxed 14 cents each, and in addition to that 15 per cent.

The spoons are tariff taxed 45 per cent; the wooden salad spoon only 35 per cent. Better use wooden spoons all around; it's cheaper.

The carving knife is tariff taxed 10 cents, the carving fork 10 cents and the steel 10 cents, and in addition to that they are all taxed 15 per cent.

The salt cellars are tariff taxed 45 per cent.

The cruet for oil 60 per cent and the cruet for vinegar also 60 per cent.

Or do you still combine them all in a caster? It makes no difference—the Payne tax law taxes metal casters 45 per cent and glass ones 60 per cent.

The glass water jug or decanter is tariff taxed 60 per cent and the wine or water glasses also 60 per cent. If they are cheap pressed tumblers it is 45 per cent.

The meat platter is tariff taxed 55 per cent and the cups and saucers 55 per cent. If there is soup, the soup plates are taxed 55 per cent. That is, if they are plain; any decoration makes them taxed 60 per cent.

The coffee or tea pot is tariff taxed 40 per cent. The straw mat it rests on 35 per cent.

Are you setting the table for dinner? The candelabra are taxed 45 per cent, the candles 25 per cent and the little shades 35 per cent.

The cotton napkins are tariff taxed 40 per cent, or napkins of linen never less than 50 per cent, so says the Payne tariff tax law—never less than 50 per cent.—Exchange.

SUSPECT WOMAN OF MANY DEATHS

Chicago Woman Held After Sudden Demise of Boarder.

FEAR SHE MAY ATTEMPT SUICIDE

Being Closely Guarded While Investigation of Viscera of Supposed Victim is Being Made by Toxicologist.

Chicago, Nov. 2.—Mrs. Louise Vermilya, the widow taken in custody pending an examination of the death of Policeman Arthur Bisonnette and other persons, is being closely guarded for fear that she may end her life. After being taken to the police station she became so ill that Capt. Harding left two men to guard her constantly.

Dr. Joseph Springer announced that all of the parts from Bisonnette's body he had examined were in good condition except the liver and intestines. These, he said, had a greenish tint, which might have been caused by arsenic.

In an examination of Mrs. Vermilya's record, to substantiate her explanation of the many deaths of persons who had been associated with her, the police learned that one time when she was in court, Mrs. Vermilya showed a strange mentality and that she had been charged with perjury. It is this fact, it is said, that convinced the police they were warranted in holding her.

Mrs. Mary Mystock, formerly a roomer at the home of Mrs. Vermilya, gave the police additional information regarding the death of Richard T. Smith, a railroad conductor, who died at Mrs. Vermilya's home at the time Mrs. Mystock was a roomer there. Mrs. Mystock said that last February Mrs. Vermilya and Smith were gone three days, after which they returned and both said they had been married.

From the time of their return they lived together as man and wife, said Mrs. Mystock.

Mrs. Vermilya in a previous examination by the police had told them that Smith was merely a boarder at her home.

Nine deaths, including two husbands of Mrs. Vermilya, a son, a stepson, two daughters, a stepdaughter and two men close friends, now are under inquiry by Coroner Peter Hoffman and the police.

It was the suddenness of Bisonnette's death, with the widow's statement that he was addicted to the excessive use of liquor, whereas members of the police force had known him as a temperate man, that prompted the investigation and a determination of the coroner to have the policeman's viscera examined by a toxicologist. Prof. Walter Haines, a poison expert, who testified in the Hyde murder trial at Kansas City, is making the examination and expects to report by Friday

The coroner has gone to Barrington, Ill., Mrs. Vermilya's former home to investigate the deaths that had occurred there. In the meantime the police announced they would not question the widow further until the toxicologist reported, but would keep watch on her.

STILL SEEK SPINELESS THISTLE

Value for Winter Feed Causes Governor Stubbs to Correspond With Luther Burbank.

Topeka, Nov. 2.—Prof. L. L. Dyche, state fish and game warden, desires to try his hand at breeding the spines off the Russian thistle. Gov. Stubbs asked Luther Burbank how to go about removing the spines and if it were possible to do it. A letter from Burbank, just received said that the plan to follow would be to find a wild thistle with the smallest spines and then propagate from it.

The thistle, when cut before the spines harden, is a good winter feed.

STORY OF CRUELTY DENIED BY ITALY

Whole Country Stirred up Over Reports of Outrages.

PREMIER GIOLITTI'S STATEMENT

Says Only Reproach Possible is Because of Excess of Humanitarianism—No Italian Would Offend a Woman.

Tripoli, Nov. 2.—The last 24 hours have passed without active engagement. An Italian aviator, while making a reconnoissance, succeeded in dropping four bombs in the midst of the Turkish encampment.

Rome, Nov. 2.—The reports which have been spreading in foreign countries that the Italian troops at Tripoli have practiced extreme cruelty in the war against the Turks and Arabs, killing women and children, aged and infirm and non-combatants, have caused intense indignation throughout Italy. These reports already have been denied officially, but Premier Giolitti took occasion again to emphasize the denial and to make a statement in behalf of the government and nation.

"If any reproach is admissible," he said, "it can only be on account of excess of humanitarianism. We have perhaps, through exaggerated scruples, spared the lives and property of the enemy, and so doing have exposed ourselves to grave risks. This, however, we have been pleased to do, to prove that we are civilized and human. Perhaps what is the bounty of the strong may be judged as weakness.

"Our soldiers, trained in the school of loyalty and accustomed to the uprightness of the Abyssinians, who are open enemies or steadfast friends, did not expect that the Arabs, after they had sworn fealty and received grain and flour and other concessions would treacherously break their oaths and traitorously turn their arms upon the wounded. Among those heroic dead many were barbarously killed by the enemy after they had fallen gravely wounded.

"He who asserts that the Italian soldiers would offend woman or child shows ignorance of our country and race.

"In open attacks, in ambushes and also in time of treason, the humanitarian sentiments of the Italian army and navy are above praise. Always admired, they render this war an example of generous and chivalrous civilization."

A dispatch from Gentry, Mo., says farmers in that community are busy gathering their crops of apples and corn, both of which are much better than was anticipated. New corn is selling at 50 cents a bushel and winter apples may be had at 30 cents. That the yield of these two crops is much better than that of last season is indicated by these prices, which are lower than at this time last year.

Don't Put Off Selecting Your Suit or Coat Any Longer

Stocks Never so Complete or Styles so Practical as Now

You know how indispensible a smart tailored suit, or a stylish coat, for that matter, is. You know how many occasions arise when nothing else will serve. Realizing this, don't you see the wisdom of selecting at once—while stocks are complete, while there will be no difficulty in finding exactly what you want.

No previous season has ever found us so well prepared to meet all demands for suits. Every favored fabric is represented. The newest styles are here in great variety, The trim jackets, the practical skirts are fashioned in many different ways—though all conform to style demands and are correct in every little detail.

The woman who prefers plain tailored effects and the woman who likes the more elaborate styles can each be suited here. For shopping, for traveling, for visiting, for every day use there are models designed by master artists.

Deserving special notice is a lot of serge suits which has just arrived. They are extremely plain tailored—the money being placed in the materials. The jackets are short, 22 and 24 inches in length. Priced from $16.75 to $25.00. Other suits from

$15.00 to $35.00

These Becoming Coats Meet the Approval of Everyone Who Has Seen Them

And they should for they are so clever and so becoming to nearly every type of figure. The loose fitting effect, the large collars and cuffs, the decorative buttons are all in good harmony and in good taste. The reversible coats are especially striking with their contrasting colors. The reverse side shows on the collar, the revers and the cuffs, and forms the only trimming.

The many different weaves enable one to suit their individual taste. The Miss, the Matron and the elderly woman can find what they desire here.

They are tailored so well, of such good materials, that two seasons' satisfactory wear can be expected. Priced very reasonably from

$10.00 to $40.00

The Big Sale of Fine Pattern Hats Continues

Included in this sale is a showing of smart

for evening wear, daintily made from soft fabrics, with beautiful trimmings.

Prices are very much lower than regular.

Give Munsing Underwear a Real Test

There is one way to find out about Munsing Underwear—and that is to test it by wearing it. After several seasons of comfort and satisfaction you will say, as thousands of others have said, that Munsing Underwear is the best fitting, longest wearing, most durable Underwear made.

Substitutes say, "Just as good." Don't listen; insist on Munsing Underwear. There are no bunglesome seams, no clumsy worked buttonholes, no loosely knit ankles or cuffs, and, best of all, it retains its elasticity until worn out.

No better fitting, more desirable, comfortable and satisfactory Underwear is made. Munsingwear fits well, wears well, looks well and sells at such a reasonable price that it should be worn by everyone.

\$150 a Ton for Broom Corn.

Alvin D. New is shipping his big crop of broom corn this week and will receive $150 a ton for it this year, while last year he received but an even hundred, so the good housewife need not be surprised if the price of brooms go up in the near future.

Mr. New put in 55 acres this year—planted it the 14th day of June, and plowed it but one time, yet he will have twenty tons to sell which will bring him the handsome sum of three thousand dollars. It would certainly be hard to put in a crop that will beat this one, as it requires but little cultivation and always brings a big price. Alva Pierce and one or two others east of town raised quite a crop of it this year, but Mr. New is the king of the industry so far.—Hopkins Journal.

Eating Their Horses.

According to market reports more than thirty-five and a quarter million pounds of horse meat was eaten in Germany during the first six months of the present year, only about ten million pounds less than the quantity of mutton.

All the time the prices of meat in Germany, as in this and other countries, have continued to rise, and public markets for the sale of fish have been opened in many of the German municipalities.

If the practice of eating horse meat shall continue to increase, such condition will occasion still higher prices for the animals—and governments already find it no easy matter to secure horses for army service even at very high rates.

And all this in spite of the tremendous increase in the use of the automobile.—Chicago Journal.

Dinner from 11 to 1:30 and supper from 5:30 to 7 o'clock will be served by the ladies of the M. E. church, South, on Saturday in the room east of the postoffice.

Miss Donna Sisson went to St. Joseph Thursday morning to spend the day.

Stanberry Boy Shot.

Saturday afternoon, as Truman Cooper and a grandson of Henry Hunter were coming home from hunting down on the creek, Truman was shot and slightly wounded by the Hunter boy.

It is claimed that the Hunter boy pointed the gun at Truman's feet a number of times, and finally said to Truman, who was walking ahead, "You may think I'm afraid to shoot." Truman paid no attention to him, but heard an explosion, and when he regained consciousness he was out on the ground and blood was running from a number of wounds. It appears that the gun was aimed at the back of Truman's head, but in some way was held too high and too far to one side to get the full force of the load. His hat was torn to pieces and a number of shot hit the skull, and glancing, passed around, coming out through the skin in his face. Hunter was arrested and his trial will be later—Stanberry Herald.

MORE EVIDENCE AGAINST PASTOR

Rev. Richeson Seen With Miss Linnell on Day of Her Death.

EDMANDS' SUPPORT WITHDRAWN

Testimony of Three Young Ladies Before Grand Jury Said to Make Success of Prosecution Certain.

Boston, Nov. 2.—The missing link in the chain of evidence against the Rev. Clarence V. T. Richeson, indicted for the murder of Avis Linnell, has been furnished by Miss Gladys Chase, of Hyannis.

Miss Chase was in Boston upon the fatal Saturday. She was walking along Washington street when she met the Rev. Mr. Richeson and Avis Linnell. She knew them both well, and is positive of the identification, the day and the time of day. Miss Chase will be a vital witness at the trial of Richeson and the state believes that her story fills the last gap that stood between the accused clergyman and the death chair.

This testimony is corroborated by Mrs. Bertha M. Girdler of Mercer, Me., who is visiting Boston.

Mrs. Girdler's story, if she is not mistaken, may furnish the last link in the government's case regarding Richeson. She says that she saw Avis Linnell and Richeson dining together in O'Brien's grill on Dartmouth street on Saturday, the day on which the girl died.

A sensation was caused by the announcement that the Edmands family would soon withdraw their financial support from the defense of Pastor Richeson.

Coincident with this announcement came the declaration that the object of the detectives employed by Moses Grand Edmands, father of Violet, who searched the rooms of Pastor Richeson before the police reached there, was only to secure the letters written by Miss Violet Edmands to Pastor Richeson since their betrothal. These letters, it was stated, were the only things taken from Pastor Richeson's rooms and they have been destroyed.

The prosecution is satisfied that with the testimony of three young women who were taken before the grand jury almost at the last minute the government's case is clinched.

The evidence of these three young women is said to be the most damaging to Pastor Richeson in the hands of the prosecution. Their names are being kept a secret and their evidence was given voluntarily.

Fear of notoriety attending the indictment proceedings against Pastor Richeson kept the three young women from coming forward and telling what they knew until almost the hour of the indictment. District Attorney Pelletier heard what they had to say and then ushered them into the grand jury room.

BOOKS TO FEDERAL GRAND JURY

Iron Workers Accounts to be Used in Government Case Against McNamaras.

Indianapolis, Nov. 2.—Possession of the account books of the International Association of Bridge and Structural Iron Workers and other evidence in the so-called McNamara dynamiting case was granted to the federal grand jury by Judge Joseph Markey of the criminal court of this county.

Petition for use of the evidence seized in a raid on the offices of the association at the time of the arrest of John J. McNamara was made by Charles W. Miller, United States district attorney, who set out that the federal jury is about to investigate information that John J. and James B. McNamara and Ortie E. McManigal and others had engaged in a conspiracy illegally to transport explosives from one state to another. Counsel for the association resisted the petition.

Postcards to be Censored.

Chicago, Nov. 2.—A crusade against objectionable post cards has been started by Postmaster D. A. Campbell, who has appointed censors at all Chicago sub-postal stations. Here are the three chief kinds of pictures ordered barred from distribution: Men and women kissing; women in abbreviated costumes; animal pictures.

Found a Counterfeiter's Plant.

Chicago, Nov. 2.—A package containing 143 counterfeit $10 bank notes was found buried beneath a tree on an island in Jackson park by Capt. Thomas Porter of the United States secret service. The bills were recovered after a confession from Albert Leon, head of a counterfeiting gang.

Stephenson Inquiry Adjourns.

Milwaukee, Nov. 2.—The United States senate committee, which for a month has been investigating charges of bribery in the election of Senator Isaac Stephenson, adjourned its hearings in Milwaukee to meet later in Washington.

MRS. McGILL BROKE DOWN

Gives the Real Facts In Regard to Her Case and Tells How She Suffered.

Jonesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "I was very weak and could not do any work. I tried different remedies, but they did me no good.

One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more.

Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui.

Such testimony, from earnest women, surely indicates the great value of this tonic remedy, for diseases peculiar to women. Are you a sufferer? Yes? Cardui is the medicine you need. We urge you to try it.

N. B.—*Write to:* Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for *Special Instructions*, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

Mr. and Mrs. C. A. Langston and Mrs. Langston's daughter, Ola Eshelman, of Hopkins, were business visitors in Maryville Thursday.
